## One of the Greatest Battles of the War Raging Over a 25-Mile Front in Picardy

### ALLIES MUST DICTATE PEACE SAYS SENATOR

Germany Must be Placed  
In a Position Never  
to Disturb World

### WARNS AGAINST INSIDIOUS HUN PEACE PROPAGANDA

Never Yielding Until Ger-  
many Is "Beaten to Her  
Knees."

(ASSOCIATED PRESS TELEGRAM)  
Washington, Aug. 23.—An earnest  
warning against "insidious and poi-  
sonous" German peace propaganda,  
and a declaration that peace must  
be dictated to and not negotiated  
with Germany to place her in a po-  
sition where she never again can dis-  
turb the world's peace, were made in  
the senate today by Senator Lodge  
of Massachusetts, ranking Republi-  
can of the foreign relations commit-  
tee.

Peace terms which must and will  
be forced on Germany were speci-  
fically detailed by Senator Lodge, in  
addressing the senate in support of  
the man-power bill to extend the  
army draft ages.

They included complete restoration  
of Belgium, unconditional return of  
Alsace-Lorraine to France and of  
Italia Irredenta to Italy, safety for  
Greece, independence for Serbia and  
Rumania, an independent Poland, in-  
dependence of the Slav peoples and  
freedom of Russia from German  
domination, including return of  
Russian territory wrested by Ger-  
many in the Brest-Litovsk treaty.

Furthermore, Senator Lodge de-  
clared, Constantinople must be made  
a free port, and Palestine never re-  
stored to Turkish rule.

"These are the principal condi-  
tions," he said, "which will give a  
victory worth having. No peace that  
satisfies Germany can ever satisfy us.  
It cannot be a negotiated peace. It  
must be a dictated peace, and we and  
our allies must dictate it."

Germany undoubtedly will attempt  
a strong peace drive when she feels  
victory is slipping from her grasp,  
Senator Lodge asserted in solemnly  
giving warning against the least  
yielding until Germany "is beaten to  
her knees," and such a peace con-  
fessed by dictation that will remove  
her forever as a possible disturber  
of the world's peace.

"The Germans repulsed, and los-  
ing," said Senator Lodge, "will un-  
doubtedly resort to their other wea-  
pon, which they have used more  
than once during this war with ter-  
rible effect. They will begin an in-  
sidious and poisonous peace propa-  
ganda. With this weapon they have  
succeeded in disorganizing Russia.  
It is the more propaganda which we  
shall be obliged to face in the en-  
suing months and it therefore seems  
to me of the last importance to know  
exactly what we mean by peace.  
Generalities will not serve. It must  
be, it is commonly said, we have all  
said it—a just and righteous peace.

"But what is a just and righteous  
peace? We intend to make the  
world safe for democracy. But  
what, exactly, do we mean by de-  
mocracy? If we mean, as we un-  
doubtedly do, the democracy of En-  
gland, France, Italy and the United  
States we can all understand it; but  
the Bolsheviks masquerade under  
the name of democracy and the Bol-  
sheviki, by a combination of treach-  
ery, corruption and ignorance have  
reduced Russia to servitude under  
Germany and have endorsed a form  
of democracy as dangerous to the  
world as the government of Hohen-  
kollerns."

### CARDINAL FARLEY BETTER

(ASSOCIATED PRESS TELEGRAM)  
Newark, N. Y., Aug. 23.—At-  
tending physicians reported a slight  
change for the better in the condi-  
tion of Cardinal John M. Farley,  
archbishop of New York in a bulle-  
tin issued this morning. They  
stated however that the prelate's ill-  
ness of hypostatic pneumonia keeps  
him still in a very critical stage.

### INCREASE FOR WOMEN.

(ASSOCIATED PRESS TELEGRAM)  
London, Aug. 23.—The ministry  
of munitions has ordered that the  
wages of women munition workers  
be increased five shillings weekly  
after September 1st. Girls under 18  
in munition plants will receive an  
increase of half a crown.

### IMPOSSIBLE TO COUNT NUMBER OF PRISONERS

Taken in French Drive and  
Partial Count Gives  
200 Guns

### ALL LAND FORCES OF ARMY AND AIR FORCES CO-OPERATE

"The Devil Himself Could  
Not Hold Out" Said  
a German.

(ASSOCIATED PRESS TELEGRAM)  
With the French Army on the  
Oise, Thursday, Aug. 22.—To the  
left of Bretigny the Germans are  
north of the Oise, except those that  
are hiding in fields and thickets,  
dead or prisoners. It is impossible  
to estimate the number of captives  
being sent to the camps in the rear,  
and army headquarters itself does  
not have more than an approximate  
count. Only a partial count has  
been made of the booty which in-  
cludes at least 200 guns, many of  
them of large calibre.

The Germans still are stoutly re-  
sisting the first French army around  
Roye. In their retreat across the  
Oise the Germans did not have time  
to destroy the bridges. Some were  
found intact, while others were dam-  
aged.

Cavalry is rendering marked ser-  
vice in the pursuit of the enemy.  
Not only are there cavalry advance  
guards, but other troops are follow-  
ing the infantry to take care of the  
machine-gun nests left behind by the  
Germans to be sacrificed in attempt-  
ing to check the French advance.  
Aviators preceded the cavalry. They  
are dispersing enemy rear-guards  
who attempt to make a stand and are  
breaking up and scattering convoys  
on the crowded roads with machine-  
gun fire.

Batteries of guns and ammunition  
wagons with the horses at the gal-  
lop were pushing north today through  
an immense dust-cloud over the fields  
where yesterday the German rear  
guard fought desperately to save part  
of their artillery. Many of the guns  
had to be left behind, as well as a  
great number of machines.

"The devil himself could not hold  
out against all that," said one cap-  
tured German subaltern. "We didn't  
know which way to turn."

The excellent co-ordination of the  
different branches of the French  
army is proving most effective in  
the present pursuit. It has been the  
manner in which the infantry, artil-  
lery, cavalry and aerial arms have  
worked together that has made it so  
difficult for the Germans to get  
away.

### PLANNING TO REBUILD TOWN

(ASSOCIATED PRESS TELEGRAM)  
Tyler, Minn., Aug. 23.—Minnesota  
home guards men today were guard-  
ing the ruins in the tornado-stricken  
town of Tyler, and only relatives of  
victims or persons whose missions  
were approved by the adjutant gen-  
eral, who has taken charge of the  
relief work, were permitted on the  
scene.

The death list of 29 remained un-  
changed today.

Plans are being made to clear  
away the debris and rebuild the  
town.

### THREATS AGAINST OFFICERS' LIVES

(ASSOCIATED PRESS TELEGRAM)  
Washington, Aug. 23.—An official  
dispatch from Switzerland today says  
that attempts against the lives of of-  
ficers are increasing in Austria. It  
is reported that several commandants  
of Austrian corps have advised of-  
ficers in the rear to have revolvers  
with them always.

### DIRECT HITS MADE BY OUR AVIATORS

(ASSOCIATED PRESS TELEGRAM)  
Washington, Aug. 23.—General  
Pershing's communique for Thursday  
says many direct hits were observed  
when American aviators successfully  
bombed the railroad yards at  
Longyon, Audun-de-Roman and Con-  
flans August 21-22.

the laundry of our boys in France  
helps keep the boys healthy.  
This photo shows the 26th divi-

sion headquarters laundry. The  
soiled clothing is left at one tent  
and the clean awaits the boys at  
the other tent. The old Chinese

style in getting laundry is car-  
ried out only the men must hand  
in their soiled clothes instead of  
tickets to get clean garments.

### BATTLE LINE LENGTHENS AND IS NOW EXTENDING OVER FRONT OF 50 MILES

(ASSOCIATED PRESS TELEGRAM)  
London, Aug. 23.—A battle is raging today in France on one of the  
widest fronts of the war. It extends for about 50 miles north from Sois-  
sons. Everywhere, according to news received here this afternoon, from the  
battle front, the battle has been going successfully for the entente allies.

The British Third army has gained more than a mile on a front of more  
than seven miles.

The British Fourth army has gained more than two miles on a front of  
seven miles.

The Fourth army has taken more than 1500 prisoners today. The Third  
army captured more than 500 Germans in the town of Gomiecourt alone.

### KILLED WHILE TALKING WITH ANOTHER'S WIFE

(ASSOCIATED PRESS TELEGRAM)  
Youngstown, O., Aug. 23.—Ar-  
thur McTaggart, 35, steel worker of  
this city was instantly killed Friday  
by one of three men who suddenly  
confronted him while he was seated  
with Edna Simpson of Youngstown  
on a bank on Salt Spring street.

McTaggart was to have been mar-  
ried to another woman next week  
while the Simpson woman is said to  
have a husband with the American  
forces in France.

The woman is held by the police.  
She said that while she was convers-  
ing with McTaggart three men ap-  
proached and after a brief alterca-  
tion one of them fired two shots at  
her companion.

The trio escaped.

### BRITISH STEAMER SUNK BY U-BOAT

(ASSOCIATED PRESS TELEGRAM)  
An Atlantic Port, Aug. 23.—The  
British steamer Diomed has been  
torpedoed and sunk off the Atlan-  
tic coast. More than 100 of her  
crew, many of them Chinese, some  
severely injured, were rescued and  
brought here today by another  
British steamer.

A Swedish steamer which also ar-  
rived here today reported that yes-  
terday morning she was held up by  
a submarine, but that after a parley  
with the U-boat commander was al-  
lowed to proceed.

ACCEPTS CANTON CALL.

(ASSOCIATED PRESS TELEGRAM)  
Dayton, Aug. 23.—Rev. H. Nevlin  
Kerst, pastor of the Reformed  
church, Miamishburg, for the last six  
years and previous to that at Ham-  
ilton, has accepted a call to the Trin-  
ity Reformed church, Canton, Ohio.  
He assumes his pastorate the first  
Sunday in October.

ASST. FIELD DIRECTOR

NAMED AT CAMP SHERMAN

Cleveland, Aug. 23.—Paul P.  
Rover of Cincinnati, has been ap-  
pointed assistant field director in the  
Red Cross bureau of camp service at  
Camp Sherman. It was announced to-  
day by James L. Fleiser, division di-  
rector of civilian relief for the Red  
Cross in the lake division.

### GERMAN TOWNS BOMBARDED BY OUR AIRPLANES

(ASSOCIATED PRESS TELEGRAM)  
London, Aug. 23.—Five impor-  
tant towns in Germany and five hos-  
tile aerodromes were heavily bom-  
barded by British aerial squadrons  
on the night of August 21-22, ac-  
cording to an official statement issued  
today by the British air ministry.

Military objectives at Frankfurt  
and Cologne, the statement adds,  
were heavily attacked and good re-  
sults were observed.

### COUNCIL TAKES UP INCREASED FARES FOR CAR TICKETS

The law committee of the city  
council met with representatives of  
the Ohio Electric Railway in the  
council chamber last night, with re-  
gard to the raising of the street car  
fares in the city. As the ordinance  
in question reads the fare is fixed  
at 5 cents, with six tickets for a  
quarter. The street car company  
wants it to read: Six cents; nine  
tickets for 50 cents. As this was  
merely a meeting of the committee  
with the car company, nothing defi-  
nite was done, but it is hoped to se-  
cure final action at the next regular  
meeting of the council.

### COMMANDER A PRISONER IN HANDS OF ALLIES

(ASSOCIATED PRESS TELEGRAM)  
Amsterdam, Aug. 23.—General  
Petapoff, commander-in-chief of the  
Red Guard army in the Marmansk  
region, is a prisoner in the hands of  
the allies, says a Petrograd dispatch  
to the Weser Zeitung of Bremen.

He was caught by peasants while at-  
tempting to flee southward and hand-  
ed over to the British.

NOTED PHYSICIAN DEAD.

Cincinnati, Aug. 23.—Dr. J. H.  
Landis, health officer of this city  
and a notable figure in the medical  
world died here early today after an  
illness of six weeks. His brother,  
United States Court Judge K. M.  
Landis of Chicago and ex-Congress-  
man Charles B. Landis of Delaware  
were here during the last days of  
his brother.

### WHAT DOES IT MEAN?

Paris, Aug. 23.—In spe-  
cial type L'Heure prints  
prominently this enigmatic  
note:  
"Will the echo to the  
great Bertha soon be heard?  
Will that echo have a Yankee  
accent?"

### PUBLIC HANGING IN MARKET PLACE OF 300 PRISONERS

(ASSOCIATED PRESS TELEGRAM)  
Amsterdam, Aug. 23.—Russian  
Red Guards, after the capture of  
Simbirsk, on the Volga, according  
to a Moscow dispatch to the Ham-  
burg Nachrichten, publicly hanged on  
the market place 300 Czechoslovak  
prisoners. The hanging, it is de-  
clared, were a reprisal for "atrocities"  
committed in the town during its  
occupation by the Czechs.

### WOMEN FOR STREET CAR CONDUCTORS

(ASSOCIATED PRESS TELEGRAM)  
Cleveland, Aug. 23.—Commerce  
today women will be trained and  
employed as conductors by the Cleve-  
land Railway company. They will  
fill vacancies caused by a shortage  
of man-power. No man will be  
forced to yield his position. The  
women will receive the same pay as  
men.

### WHOLE ARMY THREATENED

(ASSOCIATED PRESS TELEGRAM)  
British Headquarters in France, Aug. 23.—The British offensive so vig-  
orously resumed on Wednesday morning has spread so rapidly that it is diffi-  
cult to keep pace with the development of it. What now is being witnessed  
is the unfolding of a brilliant tactical scheme which must be causing the  
deepest concern to the German high command.

British troops this morning are reported to have captured Chiegnolles and  
Herleville, south of the Somme river. More than a thousand prisoners were  
taken in this operation, which eliminated the town in the line.

The town of Meaulte, southeast of Albert, fell early in the British drive.  
The British troops pressing on here are crossing the Bray-Albert road.  
Happy Valley, to the north of Bray, was taken by Field Marshal Haig's  
troops after hard fighting.

Three German battalion headquarters have been taken in the locality of  
Happy Valley. Additional guns also have fallen into the hands of the Brit-  
ish.

A number of fresh new German divisions have been identified.  
They were rushed up in the hope of saving something from the disaster  
which threatens the whole German army on this front.

### GERMAN LINE WAVING

(Compiled from A. P. Dispatches)  
British and German armies are locked in a mighty battle today over a  
25-mile front from Lihons, six miles south of the Somme river, to the Cojeul  
river, south of Arras.

This combat, which began with the British attack against the enemy  
positions east of the Ancre river on Wednesday, now has spread into one of  
the greatest of battles of the allied offensive in Picardy. It is officially re-  
ported from London that the British are making progress at some points  
and that the German attacks east of Heaucourt, at about the middle of the  
battle front were repulsed.

The British apparently still are on the aggressive along the whole line.  
French troops have occupied the southern banks of the Oise and the Aisne  
between Sempligny, south of Noyon to the railroad bridge west of Concy-le-  
Chateau.

South of Concy-le-Chateau, they have reached the outskirts of Guay and  
Pont-St. Mand. This progress brings them still further toward the rear of  
the German forces holding the hills north of Soissons and within three miles  
of the German positions north of Chemin des Dames as they stood before  
the offensive of May 27.

News from the scene of the great  
struggle would seem to indicate that  
the British have plunged deep into  
the vital positions held by the Ger-  
mans as a protection to their right  
flank.

\*\*\*\*\*

The exact line as it now stands  
cannot be given, but some of the  
towns taken by the British are almost  
a mile inside of the positions where

### GERMAN COMMAND THROWING MASSES OF MEN INTO STRUGGLE IN HOPE OF CHECKING TIDE

Huns Experiencing Bitter Defeat and Dispatches From  
British Headquarters State Our Troops Successful in  
All Their Efforts in the Picardy Sector, Covering  
Wide Range Along the Front of Over Twenty-five  
Miles—Fighting Area Extends From Lihons, Six Miles  
South of the Somme River, to the Cojeul River, South  
of Arras.

(Compiled from A. P. Dispatches)  
Along the front in northern Picardy a battle which  
seems to be one of the greatest of the war has developed.

Disaster is reported to be threatening the whole Ger-  
man army on this front and the Germans are throwing  
great masses of men into the struggle in the hope of  
checking the tide of battle which dispatches from British  
headquarters say is setting against them.

From the north end of the battle line at Boiry Becquer-  
elle, Boyelles and Gomiecourt come tidings of a British  
advance.

Meaulte, near Albert, has been wrested from the Ger-  
mans. Happy Valley south of Meaulte to the north of  
Bray also has been taken by the British it is reported.  
South of the Somme the towns of Chiegnolles and Herle-  
ville are said to have been captured from the enemy.

(ASSOCIATED PRESS TELEGRAM)  
With the British Army in France, Aug. 23.—Field  
Marshal Haig's forces are also reported to have taken  
Boyelles and Boiry Becquerelle and to be still pushing  
forward. They are piling up prisoners and guns.

The British have reached Gomiecourt, which is con-  
sidered to be the chief point of the German defense po-  
sitions. South of Gomiecourt the British this morning  
were attacking and pushing forward all along the line.

A battle has developed which seems to be one of the  
greatest of the war.

## SOLDIERS' LETTERS

Doesn't Like the Kaiser.  
Editor of The Advocate—I received your letter with medal enclosed and was glad to hear from you and thank the people of Licking county and also The Advocate for the interest they have taken in the boys of Licking county and myself. I am at Fort Monroe, Va., and am in the railway artillery, and expect to be in France in six weeks. Give all the people my best and tell them that when the 74th railway artillery gets in France there is certainly going to be a hot time for the Kaiser, and we are all anxious to get over because we have all got it in for the Kaiser, as he is the one that put us in the army, and I don't like the army, to be truthful about it. So woe be on to the son-of-a-gun of a Hun.  
W. E. Borroway,  
Headquarters Detachment, 3rd Battalion, 74th Railway Artillery, Fort Monroe, Va.

Is in Base Hospital.  
The following letter has been received by Mrs. John Paulsen, 162 James street, from her son John, who is now in Base Hospital 68, recovering from shell-shock:

"August 3, 1918.  
"My Dear Mother—I will try and write you a few lines this morning for which I know you are waiting patiently. It has been quite a while since I wrote last, but as I told you in one of my letters, don't worry, as there will be times when I have no time to write. Well, I think I will be able to write a few letters now as I am in the hospital. Nothing serious, but just a case of shell-shock and nervousness. I will be able to go back to my company in a few weeks, if nothing happens, so don't worry. I wish I could get a letter from you, as it has been a long, long time since your last letter came, but maybe some mail is waiting at the company by now.  
"Well, mother, I wish that I could tell you my experience in this year.

last few days, but, of course, I can't, and the only thing that I can say is that we have them on the run, and are driving them just like cattle. I think the old Kaiser is getting his share of the medicine now and the war will be over soon. Gee I wish you could only see them run. They are leaving plenty of souvenirs behind, and you can tell my friends that I can now get the souvenirs they asked for, if only I could send them home. I am sending you the latest number of The Ohio Rainbow Revue, which is a very good number as it gives practically all of our history up until Washington's birthday. Well, I think I have told you about all I can think of for today, so will close with love and best wishes to all. From your loving son, Raymond. Private John R. Paulsen, "A. P. ## KAISER FEARS A BROKEN ARMY

Any kind of military victory that will furnish the foundation for peace overtures and satisfy the German Junkers is the latest plan of the Kaiser, according to information received today by C. F. Lender, general secretary of the local Y. M. C. A., from Fred B. Shipp, general secretary of the Pittsburgh, Pa., Y. M. C. A., who has just returned from service of one year in France. He was second in command of the 3,000 Y. M. C. A. workers overseas.  
"Desire for a victorious peace undoubtedly has been the basis for all the German drives this year," Secretary Shipp advises, "and anxious as the Kaiser is to bring about an early peace, he fears the impression abroad that he fears the day when he will be forced to ask for peace with a broken army and a broken nation behind him."

Possibility of the war ending in the fall of 1918 is seen by many in Paris, according to Secretary Shipp, although the majority do not consider peace will come before next year.  
The need for men of strong character and pleasing personality to carry on the work of the Y. M. C. A. overseas was pointed out by Secretary Shipp.

"The recruiting of workers for the Y. M. C. A. service is not keeping pace with that of the movement of troops overseas," said Secretary Shipp, "and many more men and women are needed to carry on the work."  
"Since returning I have been asked about the canteen work that the Y. M. C. A. workers are expected to do overseas. Over there, we do not know what you mean by 'canteen work.' The Y. M. C. A. is carrying on the work and those engaged in it are expected to take their turn in standing behind the counters and serving the enlisted men, but that does not lessen the opportunity for the really big work that men are called upon to do."

Regarding moral conditions Secretary Shipp voiced a splendid tribute to the young men in the military service of the United States.  
"Since returning to America," said Secretary Shipp, "I have seen more drunken men than I did in the whole year I was in France. Moral conditions among the American boys over there are very good. The army authorities and the Y. M. C. A. are doing everything possible to protect the men from temptation, and I do not think that there is as much immorality over there as there is in the United States."

Secretary Shipp advises men who are merely "seeking a job" to stay out of the Y. M. C. A. service.

"The call for unselfish men," he said, "is very urgent. But the men who go must be inspired by motives other than the desire to seek a job. There are no jobs to be handed out over there but there is plenty of service to be given, and to the men who are ready to offer it the Y. M. C. A. is holding out its hand."

## Tired Nervous Mothers

Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my housework."—Mrs. B. B. ZIELINSKA, 202 Weiss Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KIMBLE, 935 West Race Street, Portland, Ind.

The World-Renowned and Only Absolute Smoke Consuming Stove on Earth  
THE WONDER OF THE AGE.

## THE HOT BLAST FLORENCE

PATENTED JUNE 13, 1899  
Patent Sustained by U. S. Circuit Court, July 5, 1905. Patent Sustained by U. S. Circuit Court of Appeals, March 6, 1906. Again Sustained, July 20, 1910.

Beware of imitations and unscrupulous people who claim to have a stove like or just as good as the Florence. Do not be deceived by such false claims and find it out when too late. Examine the Florence carefully before you buy.

NO SMOKE! NO SOOT! NO DIRT! NO CEINKERS!  
EVERYTHING IS CONSUMED.

At the end of the season's use with soft coal, there will be no soot in the pipe or flue.

The only jointless leg bottom and base with full radiation and large ash pan that is on the market or has ever been made in the history of the stove industry.

The jointless leg bottom and base makes the stove air-tight below the grate, which is the only true fire keeping principle.

It will be as good a fire keeper twenty years hence as it is today.

The Hot Blast Air-Tight Florence will heat twice the space that can be heated by any other stove on earth at one-half the cost.

The only perfect floor heater that is or has ever been made.

All features are patented and no stove manufacturer, dealer or user can copy or use same until the expiration of the patent without incurring liability for an action for damages.

If the FLORENCE is operated according to directions:

The No. 21 will heat 1 small room all winter with 2 tons of slack or lump coal.

The No. 49 will heat 2 or 3 small rooms all winter with 2 3/4 tons of slack or lump coal.

The No. 151 or No. 73 will heat from 2 to 4 ordinary rooms all winter with 3 tons of slack or lump coal.

The No. 153 or No. 75 will heat from 3 to 5 ordinary rooms all winter with 4 tons of slack or lump coal.

The No. 155 or No. 77 will heat from 4 to 6 ordinary rooms all winter with 6 tons of slack or lump coal.

The No. 155, One and One-half Sections High, is used for store rooms, school rooms and churches. Ordinary rooms of this description may be heated all winter with 6 tons of slack or lump coal.

Will burn a ton less of hard coal than a hard coal Base Burner of the same size and heat twice the space.

THE HOT BLAST AIR-TIGHT FLORENCE burns soft coal or slack and all the smoke and gases. No filling up of the stove, pipe or flue with soot. No dirt inside or outside the house. It will burn hard coal and all the gases which escape from the hard coal base burner. It will burn wood and sawdust, wet or dry. It will produce one-half less ashes than any other stove on earth with any kind of fuel and leave no clinkers or half consumed fuel.

## AUTOMOBILE LAW.

The increased number of automobile drivers produces many cases of friction between the officers of the law and the motorists, with hard feelings on both sides. Police officers often feel the motoring crowd to be wholly lawless, contemptuous and defiant. And the motorists feel that in many places officers are arbitrary, and sometimes principally bent on collecting fees for detecting violators of the regulations. The source of the trouble is that a great many drivers, including many people otherwise law-abiding, are exceedingly careless about obeying the various provisions of the law. They are encouraged by the fact that the automobile law of most states has become exceedingly complicated. It is doubtful if anyone obeys it perfectly. The proper way to run an automobile varies much with circumstances, and is difficult to define in advance and in the form of law.

However people who drive cars through the streets should realize that they take a serious responsibility. They will do well to study carefully the laws of the state and the local regulations in force in their own neighborhoods.

Most states have regulations fixing the age at which a person can legally run a car. It is said in many places that about all the boys in families where machines are owned, are permitted by their parents to operate the car while they are under the minimum age. This is one of many instances that could be given of indifference to the law.

Police officers on the other hand should discriminate carefully. Before making complaints they may well consider whether a driver has endangered the public in any way, or whether he has simply become bewildered by the multiplicity of regulations.

## BUILDING ON LIES.

During many centuries of experience, the world has gradually come to the conclusion that truth and honesty are the only sure foundation. Liars do not usually fare well.

International relations have gradually been coming to the same basis. Modern governments have not usually broken treaties with the cheerful ease of former periods. They realize that they must make good on their promises, if future words are to have any effect.

Consequently the faithless violation of all pledges by the German government ignores all human experience. It defies the standards of honor that we have built up through long struggle. It promises the Rus-

slans peace without annexations and indemnities, then goes in and seizes great portions of their territory and demands a vast indemnity. It broke its solemn pledge to Belgium, and then massacred its men and attacked its women because they had spirit enough to resist.

All through the war it has built its hopes of victory on lies. It started the war and then claimed it was attacked. It appeals to the terror of its ignorant soldiers by telling them that if taken prisoner they will be subject to barbaric cruelties and death.

Can a nation succeed that thus defies the whole experience of the human race, and all the standards of honor, truth, justice? There are a good many of us who would like to migrate to some other sphere of existence if lies are to trample on truth and run the world.

"Truth is mighty and will prevail," is no mere doctrine of closest philosophers. It is the experience of the ages. What has been in the past will be again. No government founded on lies has lived yet. It is not likely that the Hun power can upset all the course of human history.

The government now asks us to save our peach stones and send to the nearest department store where collection stations are maintained. Only difficulty in the way of this is that it is so easy.

When there isn't anything else for the German prisoners to do next winter, they might let them pick up every piece of sharpnel and steel that they have scattered over the soil of France.

The boys who leave school with insufficient education to take advantage of high wages, will be the ones who by and by are complaining that they have never had any luck in the world.

American troops, says a German expert, are better on the attack than on the offensive. But they don't seem to be having to use the defensive very much.

Some people's idea of observing old home week at their native place is to brag about how much money they have made by going away.

## LIGHT IN DARK CONTINENT.

(Philadelphia Record.)  
No one expects the German press to take the lead in admitting defeat and demanding that the Government ask the Allies for terms. No newspaper could take such certain steps to extreme unpopularity and to heavy punishment by the Government.

Nevertheless, through the windows of the press the light of truth is making its way into the German consciousness. Professor Delbrueck finds so much in common in the views of the belligerents that he has to discuss in the Prussian year book the reasons why they go on fighting, and then he timidly asks: "Are the others alone to blame, or is not our own policy somewhat at fault for the fact that we cannot get together to talk about peace?" It is quite unnecessary, however, to talk about peace. All that is necessary is for Germany to surrender, and peace will fall upon her.

The Dusseldorf Nachrichten makes an observation that cannot but startle any German who pauses to take its meaning: "For those it is true that the end might come quickly it could only be an end of terror, as to Russia." If this means anything it means that the German people can get peace only by sending the Hohenzollerns to join the Romanoffs, and we believe that this is precisely what it does mean. Whether an incentive or a warning, whether intended to move the Government or the people, it is a pretty plain intimation that the only possibility of peace is by the overthrow of the autocracy.

Vorwarts, addressing the German working classes, says the illusion of German invincibility has been shattered: "The German people at last realize the colossal gravity of the situation. Let us have courage to admit that so long as the war is not ended it is not won, and can be lost." The Bremen Burgerzeitung, organ of the majority Socialists, says: "Black and dark is the hour, but no refreshing breath of freedom and civil equality flows through the oppressive night of our discontent." The Arbeiter Zeitung of Vienna, says to the Austrian Socialists: "All explanations and comments cannot alter the patent fact that in this double offensive the gain of ground, and consequently the only visible sign of success, is on the Allied side." We have already noted that the Berlin Tageblatt described the unprecedented depression and disheartenment created by the news of the defeat on the Marne, although the official news agencies were insisting that there was merely a strategic retreat, punctuated by brilliant victories.

A continuation of four months of Allied successes and German defeats and retreats, together with the approach of the cold weather and a further restriction of food supplies will alter the situation in Germany. The present degree of depression there is almost entirely the product of the past four months, and most of it has been produced by the last three weeks. Remember the gloomy reflection of the Dusseldorf paper that nobody looking into the future can see any end of this war. "For though it is true that the end might come quickly, it could only be an end of terror, as in Russia." All autocracies look alike to the Avenging Furies.

## HOW SOLDIERS CAN VOTE.

(New York World.)  
Gen. Pershing and his advisers rightly rule that they do not wish an attempt to be made to take and count the votes of soldiers abroad if it threatens to interfere with their main purpose.

Interference with the military plans of the nation could hardly be avoided if electoral commissions from each of forty-eight states were to go to France and Belgium and Italy to take the vote. Imagine forty-eight sub-commissions on the Murman coast and forty-eight more chasing our little detachment west across Siberia!

Much as anyone might regret to pile more burdens upon the federal government, it is obvious that if the votes are to be taken at all, they must be taken, even for local officials, by one single authority. The proposal of Representative Thomas F. Smith that a federal commission be created for this purpose, with ample powers to arrange details will place the matter before congress in concrete form for discussion.

It may be found impossible to take the votes of the men in the expeditionary army at all. If the job is undertaken it will probably have to be done by the federal government.

## FATHER AND SON

(By Calvin Dill Wilson, in Philadelphia Record.)

THE FATHER.  
Would God that I could go in place of him my hope of house and race. Would I could shoulder knapsack, gun Against the wild and furious Hun, I could I could face the tempest, rain, The bullets, hunger, thirst and pain I'd revel in the maddest fray, If only he, my boy, could stay.

I would be glad to sink in sea, Be crushed on banes and on reefs Or fall in airplane from the sky, I've lived What matter when I die? I'd stand with smiles, in face of him, And laugh at gases, mud and trench, I'd not wait for eyes gone blind, Or shrink from slattering of the mind, I'd revel in the maddest fray, If only he, my boy, could stay.

THE SON.  
I'll know his youthful breast, As he his father's fear oppressed; That he may fall in brutal hands And be a slave to their commands, That he may die, and suffer, starve and thirst Among the demon hosts a-cursed, Oh, yes, if I could only go, And take the pain and heartache, I'd revel in the maddest fray, If only he, my boy, could stay.

THE FATHER.  
His boyish fleet is all too fair To meet the brutes and devils there, His face is too kind and bright To front the demons of the night, The heart is too true and warm To bear the ice and snow and storm, Would I for him beneath could go And bear the rain and face the foe I'd revel in the maddest fray, If only he, my boy, could stay.

THE SON.  
The call to duty now has come, The stars are out with fire and drum, The cause for which we fight is just, In God above is all our trust, I gladly go to do my share, My chance is equal and is fair, I hope, indeed, that I may live, In need I have a life to give.

THE FATHER.  
My father long has done his part, He gave me home and all his heart, I'd be unworthy of my race, If I did not I dared not face, My country has done all for me, I gladly serve to keep him free, I hope indeed that I may live, In need I have a life to give.

I feel that my heart is strong within, I prize the chance to fight and win, And if I perish, I but ask, That would come back I'd find my task I'll not so that no blush of shame Will come to them that bear his name, I'm happy that, wherever I roam, My father is secure at home, I hope indeed, that I may live, In need I have a life to give.

What tender heart will not be moved, what lachrymal ducts will not refuse to work overtime, at the beautiful sentimental legend sent out of Germany that Ferdinand of Bulgaria—poor soul!—is so broken down that he weeps involuntarily and boundlessly, early and often, and that the sympathetic Kaiser has sent an expert in neurology or oedology to "observe" his dear friend and brother. What in the world could he find to weep about unless it be that, as he recalls his so hu-

mane treatment of the Serbians, on all that concatenation of robbery and massacre, a pious tear may fall from his eyes as he thinks of the fine old, early Bulgarian hero and Philanthropist, Krum, who used to drink his wine out of the skull of the Emperor Nicephorus? Ferdinand is no sentimental burglar. He leaves that sort of thing to the Kaiser and Karl Rosner.—New York Times.

## Peace Proposals Needless.

Now there are rumors that Holland proposes to take a hand in the peace drive between the Huns and the Allies. There is no need of this. Holland can save itself from all trouble by not venturing upon any

peace propositions. The Allies do not want any, will not talk of any terms proposed by outsiders. There is nothing to negotiate. When Kaiserism ceases the war ceases. Neither Holland nor any other nation, not even an ally, can give any promise of peace without a victory that will effectually crush Kaiserism and annihilate the very spirit of it.—Ohio State Journal.

Statues of other famous Germans may be melted down for munitions, but the Imperial order has gone forth that not one bronze memorial to a Hohenzollern shall be touched. It is the Hohenzollern "ulter alies" when it comes to the final test.—Springfield Union.

## FREE TO WOMEN Handsome &amp; Valuable Premiums

YOU can easily prove by test and comparison that there is no better milk than Every Day Brand Evaporated Milk. It is pure and clean, rich and wholesome, with always the same delicious cream-like flavor, and it costs no more than ordinary milk.

Use Every Day Milk in every way that you use milk or cream left by the milkman. Dilute it with water and drink it. Feed it to your baby; it is sterilized and safe. Poured right from the can, it is better than cream in coffee, tea or chocolate. Use it for cooking and baking, for puddings and sauces, for ice cream, on cereals and fruit.

—where babies do their growing

That's the kind of baby to have—drops right off without any fuss, as soon as his meal is finished.

The baby nourished on Eagle Brand is a comfort to the whole household. For as every nurse and mother knows, sound sleep depends on proper feeding, especially in hot weather.

Borden's Eagle Brand is the safe and reliable infant food when Nature's supply is insufficient. It is prepared from rich cow's milk, and even in the withering heat of midsummer it is uniformly pure, with no possibility of contamination. It is easily digestible, wholesome and economical, with a 60-year record as the standard infant food. At better groceries; drug stores too.

## PRESS AND NATION MUST CO-OPERATE SAYS VON HINTZE

Amsterdam, Aug. 23.—"Our cause is an exalted one, but it is in great danger," Admiral von Hintze, the German foreign secretary, told a conference of German journalists in Berlin, according to the Cologne Volks Zeitung. He asked them to co-operate with him. After asserting in what high esteem he held the press, the admiral said:

"In these times the government, the press and the nation must hold together with one aim—to win the war. If these factors do not hold together we shall be beaten."

The post of foreign secretary is by no means a desirable one. All objections I had to my appointment were dispelled and I have undertaken this responsible post. I am not tackling my task with a bowed head or a heavy heart.

"I shall always show the greatest consideration to the gentlemen of the press."

## LIBERTY SONG FEST WITH WAR SLIDES TONIGHT

The last day of the Licking County Teachers Institute proved to be one of the most successful and most instructive of the meetings held. It was marked by a very large attendance showing that the interest has not lagged at all. At the morning session Professor H. C. Lot of Ypsanti Normal school, Ipsanti, Mich., gave a very helpful talk, entitled, "The Prime Qualities of a Teacher," while Miss Emily Barry gave another of her excellent talks on Reading and Language Subjects. At the afternoon session Professor Lot spoke on "The Rural School and Its Opportunities," and Miss Barry concluded her Reading and Language Subjects.

After the meeting, the election of officers for the ensuing year took place. As a fitting conclusion to their week's work, the teachers will hold a Liberty Song Fest on the public square tonight, beginning at 7:30. Over a hundred new war slides taken recently at the front will be exhibited. Several Four-Minute Men will be on hand and will deliver some good short addresses. The singing will be conducted by the county music teacher, and some good numbers will be rendered. The slides shown will be exhibited by Mr. A. H. Wagner of Ohio University, Athens, O. Everyone is invited to attend this meeting, which will start promptly at 7:30 o'clock.

## IS INVESTIGATING ALLEGED DEATH OF BROTHER IN ARMY

A report has been circulated over the city of the death of George Wolfe, formerly of Newark, but more recently in the army, in a German camp. His sister, Mrs. Homer Wolfe of 212 South Sixth street, when asked concerning the death of her brother stated that she had heard in New York, however, that he had been accidentally killed, but in absence of any definite proof she did not know if it were true. Mrs. Wolfe stated another brother had left for the west to learn the truth of the report.

One Thing Man Must Do.  
Nature never provides for man's wants in any direction, bodily, mentally, or spiritually, in such a form as that he can simply accept her gifts automatically. She puts all the mechanical powers at his disposal—but he must make his lever.

Sunday

Plotters of the Imperial German Govern-  
ment in the United States made use  
of a property of oil that is dreaded in  
every household in the country where  
lamps are used. This is the property  
in oil that causes it to explode under  
certain conditions, scattering the flames  
of blazing fluid in every direction.  
The Hun spies here made use of this  
in constructing bombs for the express  
purpose of causing incendiary blazes.  
How one of those was used in the  
stockyards in Jersey City in an at-  
tempt to destroy thousands of head of  
horses and cattle awaiting shipment to  
Europe is but one of the thrilling  
scenes in the fourth episode of "The  
Eagle's Eye," the serial expose of the  
plotting and intrigue of the Imperial  
German Government by William J.  
Flynn, recently retired Chief of the  
United States Secret Service. "Von  
Kintelen—the Destroyer," which is the  
title of the fourth episode of this im-  
mense picture, will be shown at the  
Lyric theatre Sunday.

GRAND

"Shoes That Danced"

How many of those who have been  
looking to the theatre to hear the  
golden notes of the Harmony Lad,  
latest vaudeville sensation, realize that  
the wonderful Irish singer was once a  
dangerous gangster of the East Side?  
Only a comparative few know that  
it was only a sweetheart's devotion  
and unswerving loyalty, combined with  
a woman's wit and a man's gall, that  
led to the reformation of the one-  
time gangster.The Harmony Lad, under the influ-  
ence of environment, became the  
Lieutenant of Stumpy, Captain of the  
Cherry Hill gang. Bad blood existed  
between the Cherry Hill gang and the  
Hudson Dusters, whose leader was  
Wedge Barker. There were numerous  
killings. Both gangs collected tribute  
from the helpless shopkeepers of the  
East Side and terrorized that section  
of the city.Then Stumpy killed Wedge Barker  
because of a woman. The police tried  
to lay hands on the Harmony Lad, in  
order to discover Stumpy's hiding place.  
Incidentally they planned on giving  
the Harmony Lad a full trial.Rhoda Regan, a girl of the tenements,  
and the tenor's sweetheart, anxious to  
save the Harmony Lad's reputation  
(for he was just then getting a start  
in the cabarets), threw the officers off  
the track by a clever ruse, and suc-  
ceeded in landing Stumpy for them.She is a wonderful little girl, is  
Rhoda Regan, in Triangle's great  
photoplay of East Side life, "The Shoes  
That Danced." All night long she  
danced to save her sweetheart. Char-  
ming Pauline Starke, Wallace McDon-  
ald and Dick Rosson play the leads.  
"The Shoes That Danced" will be shown  
at the Grand Theatre Sunday and  
Monday.

ALHAMBRA

Friday and Saturday

Viola Dana now knows how a pug-  
ilist must feel when he receives a  
knockout punch, for she took the count  
of nine as the result of over-zeal while  
enacting a scene in "The Only Road,"  
a Metro All-Star Series picture which  
will be the screen attraction at the  
Alhambra today and tomorrow. In plain  
words, Miss Dana bumped her head,  
and was knocked out.She was seeking to escape from her Mex-  
ican persecutors through the window  
of an adobe shack. At the word from her  
director, she dashed for the window  
and tried for a flying leap through. She  
banged her head against the top sash  
and fell back into the room. Oh, how  
many stars the little favorite did see!

appearance in Goldwyn Pictures as

low," announced by the Alhambra the-

the international favorite appears in a  
dramatic offering mingling smiles with  
heart-throbs. She plays a copy girl,  
the first time Miss Normand has en-  
acted such a character. Care-free and  
happy-go-lucky Patricia gives little  
thought to the problems absorbing the  
older women, preferring to torment  
the officers in the office and match  
wits with the youngsters. It means  
nothing to her that associates her  
age over the activities of a band of  
crooks preying on the rich and that the  
police are watching the settlement  
house of the wealthy young hunter  
Jason.

Mulhall, leading man in "The Brass  
Bullet," Universal's big new serial, be-  
ing presented at the Gem theatre, Sat-  
urday, created a genuine sensation  
among his co-workers, and earned him  
the sobriquet of "Jack the Leaper."  
The leap was from the window-sill  
of a sanitation from which Mulhall  
escapes. With the motion picture  
camera trained on him, Mulhall, poised  
on the window-sill high above the  
crowd of actors, and awaited the word  
of command from his director.  
"Go!" he shouted Director Wilson.  
For a fraction of a second his figure,  
with hair flying in the wind, was cast  
against the sky and then, with a  
mighty splash, plunged under the sur-  
face of the water, 50 feet below.

AUDITORIUM

William S. Hart

"Bill" Hart opened at the Auditorium  
yesterday in another Artcraft feature  
that he gave a daily "Good crowd" all  
day. The picture is seen today and  
tomorrow.  
The story in which Thomas H. Ince  
presents William S. Hart for his fourth  
appearance in Artcraft pictures has for  
its theme the awakening of a tough,  
hardened man to a sense of right and  
wrong through the appeal of a woman  
who has lost her own son and takes  
the rough Northwest man to her heart  
in place of the one she lost. "Blue  
Blazes Rawden," the part portrayed  
by Hart, is a lumberjack who has lived  
all his life in the great woods. He  
struts into the dance hall and gambling  
room of "Ladysingers," Hilgard, a  
"black sheep" from England, whose  
establishment will wear the same place  
of concealment. Between Rawden and  
Hilgard there is instinctive antipathy.  
Hilgard, who has lost her son, and  
wins the smiles of Hilgard's sweet-  
heart and wins his possessions at his  
gambling tables. Hilgard suspects a  
double death in a darkened room and in  
the struggle takes a victim of his rival.**THE NEWARK FASHION**

## OLD PAINTINGS AND TAPESTRY OF SUPERB DESIGN

Admired by American Soldiers,  
Piloted Through Rennes by  
Newark Y. M. C. A. Man,  
Ray Evans.

Rennes, France, July 30.—The Advocate's letter of the 12th of June was received in due time, which means a little more than a month. The mail service is not the speediest thing about Uncle Samuel's war preparations. Since last writing, I have moved to the city of Rennes where I am to start two or three Y. M. C. A. huts, tents or something. The work is quite important I think, as the men who are here are close to a town which probably is no worse than a lot of American cities, and is enough has been said and written around the soldier in U. S. cities is very hard here, and I surely have a lot of sympathy for both men and officers.

Enough has been said and written about the French habits of life so it does no good to dwell on that but it is enough to say that it is not according to the standards bred and nurtured in the best of American homes.

Last Sunday, a Professor Bennett, who has charge of the educational work of our local camp, guided a party of soldiers around the town, pointing out the interesting things. I went with him as in the future I am supposed to look after the parties—a personally-conducted rubberneck party, or Cook tourists, if you please. We first went to the old section of the town, and there we saw a portion of the old city walls built hundreds of years ago—how long ago I am afraid to say, even if I knew, for fear some would think I have been drinking something that makes a person see old things. We saw houses with dates on them built before America was discovered; a tower of winding stairs that had walls three-feet thick; a cathedral built in the fifteenth century, and many interesting landmarks with carved woodwork on door-jambes and over the doors, and all of them in use today! We then visited the Palais de Justice where are some of the most marvelous paintings in the world. They were painted in the fourteenth and fifteenth centuries, and are as clear and distinct, and really more wonderful, fully executed than some I saw in later days. Several tapestries hung on the walls, measuring probably 50 feet by 30, and of such superb design and workmanship that a stranger does not believe they are not paintings until he touches the cloth, and examine the weave. The caretaker or concierge, as they call him here, says with much pride, that they are worth a million francs, something near \$18,000, and I would venture to say that some of our wealthy men would gladly pay three times that to get them. However, they won't as that is one thing the French are carefully guarding, to see that no American soldier or "Y" secretary swipes the pictures.

The city hall is also a marvel of architecture and would shame many of our cities of five times the population of this town. They also have some great paintings, as well as the place where we got our bread tickets. The museum has statuary, paintings, curios, and old furniture that would do justice to a large city like New York. I didn't know it, but Professor Bennett said so, so I suppose it's true. One or two pictures of the Crucifixion are wonderful. The agony on the face of the Christ is so real the sorrow and heart-break of the friends standing near so moving that hardly a person can look upon the painting without the tears becoming evident. And those were painted when our forebears were chasing Indians and trying to wrest a living out of a forest.

I suppose from the foregoing that my good friends will think I have joined the class of the plutocrats that toil not nor spin, but that only lasted two days, and now I am hard at it again. Probably you would consider a tale of the sorrow, sin, sickness, death, or war of the soldiers more appropriate, but from what I read in your paper and the Tribune, you get about a double dose of that, shaken down, piled on, and rubbed in.

I want my friends to wait cheer-

fully and suppose they prefer the same. For instance, I could have told of the hospitals here filled with wounded soldiers, etc. but consider a more cheerful view of life an antidote for all the harrowing details filling papers and magazines. Possibly I am wrong, but can remedy that if you wish the pitiful, providing the censors pass it.

I hope to hear from you again and I wish to express my appreciation for the courtesies extended me by yourself and many others, who are trying to keep things normal in the home-city. My address is: A. Ray Evans, 12 Rue d'Aquesseau, Paris, France.

## NERVE WRECKED MEN AND WOMEN NEED BIO-FEREN

7 A DAY FOR 7 DAYS

People whose nerves are shattered because of overeating, too much work, worry, excessive use of tobacco or strong drink or in fact any excess that affects the nervous system will find in Bio-feren a health restorer that speedily brings back the vigorous nerve force that makes life worth living. Bio-feren is a triumph of present day research and study; it is a grand and inexpensive remedy that gives results in a surprisingly short time. The formula is no secret.

If you want better health, stronger nerves and keener mind get a package at any pharmacist. Take two after each meal and one at bedtime—7 a day for 7 days—then one after each meal until the supply is exhausted.

It's worth a lot of money to have nerves like steel, a clear, active brain and strong, vigorous body. Bio-feren will give you all these much desired blessings if you have faith enough to make a start.

## Cocconut Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulsified cocconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

#### The Sick

Lafe Green of Alexandria, was operated upon for chronic appendicitis at the private hospital yesterday morning by Dr. W. B. Nye, who reported that Mr. Green rallied from the anaesthetic nicely and is expected to make a rapid recovery.

Mrs. Raymond Lewis, who underwent an operation at the City hospital about a week ago, has returned home from the hospital and is reported to be convalescing nicely. Dr. W. B. Nye is the attending physician.

Mr. Steeley, 18 Sixteenth street, who had his leg broken by having an automobile tire explode while it was being inflated, is reported to be slowly convalescing. Drs. Harry Postle and W. B. Nye are the attending physicians.

Henry Foster was taken to his home from the City hospital in Crisis Bros. ambulance last night.

W. W. Griffith was taken from his home in Granville to the City hospital in Bazier's ambulance late last night. Dr. Jury was summoned from Columbus, and he with Dr. Loveless of Granville, performed an operation on Mr. Griffith today.

Some men fall because they waste too much time in fooling over trifles that they could hire a boy to attend to at \$2 a week.

#### GREAT FERARI SHOWS HERE ALL OF NEXT WEEK

The Col. Francis Ferari shows will exhibit in this city all of next week, under the auspices of the Woodmen of the World. The exhibitions will be given on the grounds at Eleventh and Jefferson Streets and as the Ferari shows have a reputation nationwide, no doubt the grounds will be packed at every performance.

The shows will arrive Sunday afternoon over the Pennsylvania lines in 22 double length cars, and the unloading of the wild animals will begin. Three hundred people are also carried with the shows.

Col. Francis Ferari established a rule with his shows several years ago not allowing any unnecessary work to be done around his shows on Sunday and in accordance to this rule there will be no tents erected until Monday morning except the

Ferari Wild Animals.

tent that houses the animals, elephants, horses, dogs, and ponies, so that they may be fed their Sunday meal. The state laws are very strict in regards to housing up animals and not watering and feeding them every twelve hours and as it is characteristic with wild animals to have a certain fear during transit they will not eat until unloaded from the cars.

The Elyria Ohio Telegram under date has the following to say of the Ferari Shows:

"An unusual scene took place here Sunday when the Col. Francis Ferari Show train steamed in to Elyria, so different from any carnival or circus ever here. 42 big circus wagons were unloaded and moved to the grounds and not one word of profanity heard, not one argument took place. The entire train load of wagons were placed on the grounds with not much more noise than would be made by a street car. Another very noticeable and gratifying fact, were the people connected with the carnival, were not the usual rough and tough element that usually accompany a carnival, but a crowd of ladies and gentlemen way above the appearance of any other show that has ever appeared in Elyria. Sunday night many of the carnival people were seen wending the way church-ward and the ministers of the city commented on this fact and it goes to show that the amusement business, at least as far as the Ferari Shows are concerned, is undergoing a decided uplift."

When the big train steams in to Newark Sunday no doubt a big crowd will be waiting at the depot to watch the unloading of the heavy wagons and property as this is something interesting to the public in view of the fact that the U. S. Government have mechanical engineers on every big show and circus in the country learning the method and system of loading and unloading of wagons and show property with the view of adopting the showmen's plans of handling big propositions rapidly in the way of moving our troops during the war.

The Woodmans Carnival will start Monday night and with such shows, as the Ferari Shows are, there is no doubt but what the grounds will be packed the entire night as well as the following nights of the week.

**Married by Justice.**  
Dell J. Collins and Miss Floy Gladden were married by Justice B. O. Horton yesterday morning.

#### OBITUARY

**Death of Infant.**  
George, the nine months old son of Mr. and Mrs. George E. Thompson, died at 12:30 o'clock last night at the home of the parents, in 449 Walnut Lane. Surviving are the parents, a brother and a sister. The funeral services will be held at the home Saturday afternoon at 2 o'clock Rev. A. B. Cox officiating. Interment in Cedar Hill cemetery.

**Stanley Clinton Potts.**  
Stanley Clinton Potts was born in the year 1893 in Adams county, Ohio, and at the age of 16 years together with his parents removed to Scioto county. In the year 1912 he was united in marriage to Miss Martha McElhaney, and to this union three children were born, Elm, Mildred and Stanley Jr., who with the wife, mother and father and five sisters are left to mourn the loss of a loving husband, father, son and brother. In the year 1913 the deceased removed to Newark and became a fireman in the B. & O. railroad. He continued in the service of this company until August 4, 1918 when he met his death at 11:20 a. m. in a head on collision, a few miles east of Zanesville.

His remains were taken to Zanesville and prepared for burial and later taken to Newark where funeral services were held. Interment was made in the cemetery at Rushtown, Ohio.

His parents reside at Arion, Ohio. The sisters are as follows: Mrs. Brooks, Cincinnati; Mrs. Pyles, Newark; Mrs. Charles Hurley, Portsmouth, and Estella and Lenora Potts, Cleveland. One brother Roy Potts having preceded him to the grave, departing this life at the age of 5 years.

The Brotherhood of Firemen and Engineers showed their devotion and sympathy by attending the services. His pallbearers were selected from his associates in this organization. Funeral services were held in Newark and also at Rushtown by Rev. Mr. Cox of Newark.

The deceased was aged 25 years and of justice he was devoted to his family and parents and will be greatly missed.

"The path of the just is as a shining light that shineth more and more unto a perfect day." 8-23-1t

#### THE COURTS

**Suit for Services.**  
Gertrude Hetzer has filed a petition against Edward Kibler, sr., as administrator of the estate of Wm. H. Coffman, in common pleas court today. The case comes to common pleas court on appeal from the dockets held in Justice B. O. Horton. Plaintiff says that the defendant is the duly appointed administrator of the estate of Wm. Coffman, and, as such administrator, is indebted to plaintiff in the sum of \$91, plaintiff Coffman's nurse during his last illness. Plaintiff says that she has presented the bill, but the defendant refuses to allow it as valid claim against the estate. Wherefore, plaintiff prays judgment in the sum of \$91.

These figures were based on cash sales up to Aug. 15th.

How soon will the Licking county cash sales reach the million dollar mark? How soon will Licking county "go over" by reaching the quota \$1,236,180?

There are no more faithful boosters of War Savings Stamps than the bankers, Postmasters and letter carriers of Licking county. Without their hearty support the campaign would have failed. The bankers knowing that W. S. S. are the safest and best investment in the world have no hesitancy in recommending their purchase to their patrons.

It begins to look like the Licking County Victory List (buyers of 200 W. S. S.) may reach the 600 mark. The names of buyers of 200 War Savings Stamps are posted upon the court house park bulletin boards.

New members of the 1000 War Savings Society are: Dr. R. G. Downs of Newark, Myrtle Belt of Croton, Frank Stark, Rose Stark, Jessie Stark, Zola Davidson, Carrie Forsythe, Perry Smoots of Alexandria, Hayes Hankinson and D. F. Hies of Granville, John Kirby of Johnstown, Mrs. Mary G. Felt of Newark, Robert Barnes R. D. Glenford, William Whitten of Johnstown, Mary Whitten of Johnstown, James Cornican R. D. 5 Newark.

**LIEUT. THAW KILLED.**

With the American Army in France, Aug. 23.—Lieutenant Blair Thaw of Pittsburg, a member of the American aviation service, was killed Sunday evening, when his airplane fell as a result of engine trouble. Lieutenant Thaw was a brother of Major William Thaw and a son of Benjamin Thaw of Pittsburg.

## The Ohio War Board Says Today

Ohio war gardens are producing a big crop of tomatoes.

Householders may be interested in these recipes for tomatoes from the U. S. Food Administration.

**Baked Tomatoes.**

Wipe six small selected tomatoes and make 2 one-inch gashes on the blossom end of each, having the gashes cross each other at right angles. Place in a graniteware pan and bake until thoroughly heated and served with any dressing.

**Tomatoes with Scrambled Eggs.**

A few spoonfuls of stewed tomato may be mixed with eggs and scrambled. Beat eggs slightly with a fork season, and mix with tomato. Melt in hot omelet pan half a tablespoonful of fat, pour in eggs and tomato, and cook lightly, holding pan away from the intense heat. A full tablespoonful of tomato for every two eggs is a good proportion, but more may be used.

**Tomato Paste.**

When tomatoes are very plentiful, and the supply is greater than the immediate need, it is a good plan to make a paste, which will keep for some time in a cool place. Wash and scald the tomatoes. Strain through a fine sieve, and boil until thick. Put in glass jars. This will be found very useful in flavoring soups and sauces.

**GIRLS TAKING ADVANTAGE OF SWIMMING POOL**

The girls and women of Newark seem to have come into their own in the matter of a downtown swimming pool. Wednesday night twenty availed themselves of the opportunity to get wet and cool, using the Y. M. C. A. pool. To accommodate larger numbers oftener, the schedule was stretched to cover two mornings. In addition to the regular Wednesday "ladies' night," Tuesday and Thursday mornings from 9 to 11 find the devotees of the healthy art splashing around like so many mermaids in the Y natatorium.

Miss Mabel Jones has been acting as a sort of caretaker and instructor, being the best mermaid that has turned up so far. She is willing to compete for honors with all comers.

The Y charges ten cents a swim and this revenue helps to offset the plumbing bills incident to the pool. Inasmuch as no valid reason seems to present itself for the trouble encountered each week when the water has to be replenished in this tank, the Y secretary lays the blame to the poor sewage system of the city.

If Newark is ever to have an up-to-date Y building, the city will have to grow to it, and at least provide proper water facilities for the upkeep of a first class pool.

**WILL ENFORCE ORDINANCE AND CLOSE WINEROOMS**

Columbus, Aug. 23.—Columbus will be minus winerooms tomorrow night.

This is the expectation and plan of Safety Director Thatcher.

He declares:

"Steps have been taken to abolish winerooms and will enforce the ordinance to the fullest extent of the law. I have not wanted to break into the public press on the issue. They will not be open Saturday night."

Thatcher's interpretation of the wineroom closing ordinance will not affect hotel and club dining rooms and grills.

When he made his announcement of plans he did not know that a letter had been written to him by City Attorney Scarlett, at the instigation of attorney Robert E. Pfeiffer of the department of justice and Chief John P. McCune of the American Protective League, asking for enforcement of the closing ordinance.

It is estimated that 19 winerooms now operating full swing, will have to close.

Pfeiffer yesterday declared that vice is thriving in winerooms. Several cases, he says, have been called to his attention within a few weeks, where soldiers have frequented winerooms in company with women. The soldiers were served with soft drinks, but the exchanging of drinks is not unheard of.

Scarlett's interpretation of the winerooms ordinance is practically the same as Thatcher's. They think that places operated for the initial purpose of serving food, although drinks are also sold, cannot be classed as winerooms.

## EATLESS DAYS WERE COMMON

Queen City Woman Tells How She Overcame Stomach Trouble.

"Think of your stomach being so out of shape that you couldn't eat scarcely anything because of bad after effects."

That's just the way Mrs. Mary Miller, 708 Race street, Cincinnati, used to be. But—

"I can eat anything I want since I've been taking Tanlac. That's what Mrs. Mary Miller says now. She told the whole story as follows:

"I had a lot of trouble with my stomach before I took Tanlac. I bloated badly after eating and I'd feel stuffy and drowsy for a long time. Food just laid in my stomach without digesting and felt heavy. I could scarcely eat potatoes or anything greasy because of bad effects that always resulted."

"Well, finally I tried Tanlac. It seemed to help me from the start. My stomach is back in fine shape now and I can eat anything I want without bad after effects. Tanlac is a great medicine, and I recommend it."

These remedies are being introduced in Newark at Erman's Arcade Drug Store. Tanlac may also be procured at the Evans Pharmacy (Warden Hotel block, east side of square, Newark), and the Hebron Drug Store, Hebron, O.—Adv. Z

## DOCTORS GIVE REASONS FOR SPRING FEVER

**Explain Its Real Meaning.**

"The name Spring Fever," said a well known physician in conversation the other day, "is a misnomer, and is largely a figure of speech used to describe the peculiar lassitude, that so many people complain of at the expiration of our winter months. It is a physiological condition well known to the medical profession, and is not a fever at all, but a general letting down of nature's forces, particularly the nervous centers, due to the deficiency of iron and phosphorus, both of which are absolutely necessary for the maintenance of bodily vigor."

"Of course," he continued, "the excessive meat eating, the loss of green vegetables and of oxygen, of which there is so little in the average heated house, all play their part. The result is that nature is calling for an increased output of the vital forces during the winter months, and this demand means more phosphorus and iron. For it is these two potent remedies combined, which are nature's armament in her defensive warfare. With the advent of warm weather, the pores act more freely and the heart slows up and that peculiar lassitude which we call Spring Fever is manifested."

"And the remedy, Doctor," an interested listener asked? "Why my dear sir, the remedy for these starved nerves and blood centers is Phosphated Iron. But there is no reason why we should ever reach this point, if we would, from time to time take that well known remedy, Phosphated Iron, and so maintain the physiological balance, as shown by our color, our sense of well being, push and activity, all of which are necessary to make life worth while."

And the Doctor was right.

Special Notice—To insure Doctors and their patients receiving the genuine Phosphated Iron, we have put in capsules only. Do not allow dealers to substitute tablets or pills. Insist on capsules.

## NEW WIRELESS WILL CONNECT JAPAN AND THE UNITED STATES

(Associated Press Correspondence)  
Tokyo, July 30.—The installation of a new high-power wireless system between Japan and the United States is actively occupying the department of communications. Officials announce that the project is a result in part of the very great congestion and delay in cable transmission which prevents the desired freedom of communication between Japan and the United States.

The present Japanese high power wireless station communicates direct with Hawaii. The proposed action will work with a station on the Pacific coast, the site of which probably will be near San Francisco, a distance of 4600 miles. This will be one of the longest direct wireless

services in the world. The estimated cost of a new wireless system is about \$400,000. While another cable linking the two hemispheres is desired, a line from Japan to Guam alone would cost \$2,000,000.

It is estimated that details of the new wireless project will be announced shortly.

**FORCED TO WITHDRAW.**  
London, Aug. 23.—Allied troops on the Ussuri river front, north of Vladivostok, outnumbered by the enemy, have been forced to withdraw after heavy fighting, says a dispatch to the Daily Mail from Harbin, dated Wednesday.

**TOOK 5000 PRISONERS.**  
Paris, Aug. 23.—(Havas)—Between the Oise and the Aisne during the advance of Wednesday and Thursday, General Mangin's army took 5000 prisoners, according to advices reaching Paris.

Faults are so plentiful that it is no credit to the person who is always finding them.

## SHIP COMMANDER AND THREE ENLISTED MEN ACCIDENTALLY KILLED

Washington, Aug. 23.—Commander William Price Williamson and three enlisted men were killed, and Commander R. B. White and 18 men were wounded by the accidental explosion of a depth charge on board the U. S. S. Orizaba, August 17.

## BRITISH

(Continued from Page 1.)  
The Germans are believed to have stood yesterday and the greatest advance is said to be two miles.

When it is realized that the fighting on this front is along the lines which were strongly entrenched by

**WHERE YOUTHS OF  
COUNTY REGISTER**

All men who have reached the age of 21 since the 1st of June must register on August 24. All those living in Licking county with the exception of those living in Newark and Newark township will register on August 24 at the office of the local county board at Granville. The hours for registration will be from 7 a. m. to 7 p. m.

The Germans held by them until the great British offensive before Albert in 1918, the importance of the advance made today appears to be augmented.

Shaken by the allied assaults on the northern and southern ends of the Picardy battlefield, the German line is wavering. Along the Oise the enemy apparently is retreating precipitately.

Allied pressure continues strong along the whole front. Unless the enemy can check the on-rush, particularly in the south, his territorial gains of the present year are in a fair way to be wiped out. Further, if either of the allied strokes can break through the old Hindenburg line itself will be imperilled.

In the south the French are pushing forward on a front of 30 miles, east and west of Noyon, weakening the German line around Roye and northward, and providing a grave menace to the Vesle-Aisne line through the crossing of the Ailette and the Oise-Aisne canal, northwest of Soissons. North of the Somme and the Ancre to Meuse the British keep doggedly at it after having captured Albert and 5000 prisoners. South of the bend in the Ancre, they have crossed that stream to the east on a six-mile front for a gain of two miles.

Noyon, a pivot of the German lines in Picardy, still holds out, but the town and the surrounding heights are under the fire of the French cannon. West of Noyon the French are on the Divette for a distance of almost five miles. The Oise has been reached on a front of 10 miles, south and east of Noyon, and has been crossed at several points.

So hurried was the German withdrawal from south of the Oise that they were unable to destroy all the bridges across the stream. They also left behind much material and more than 200 guns. French cavalry and airplanes are harassing the retreating enemy and over the German positions of two days, even one day ago French guns and infantry are rushing northward. Except west of the Oise and along the sharp salient north of Soissons the Germans show little signs of holding, and probably will retire to beyond the Oise canal, which parallels the river on the north.

Most stubborn have been the combats on the front, north of the Somme, and Field Marshal Haig has had to face bitter resistance all along the front. His pressure continues, however, and his success around Albert probably will provide leverage to push the Germans farther east, north and south of that sector. North of the Ancre the British and Germans are struggling violently for possession of towns along the Arras-Albert railway and the Arras-Bapaume road, but the British have held to their gains.

Probably the most vital sectors of the Germans at present are those from Roye to Noyon and that northwest of Soissons. If the first should waver and fall back, the German position, north of the Somme, would have to be readjusted. The salient northwest of Soissons possibly is most important because if it should fall the French would have the heights of the Chemin-des-Dames outflanked and be in a position to menace Loos. Continued French pressure on this salient would appear to have the effect of forcing the Germans to retreat from the Vesle within a few days, at most.

American troops, north of the Vesle, have increased the security of their position by cleaning out an important point north of Fismes. The Germans attempted to counter-attack but were thrown back with a loss. Along the remainder of the Vesle the allied pressure is being maintained.

In the Lys salient, in Flanders, the British have made further progress. East of Merville, they are approaching Neufberguin. North of Bailleul, where the line turns north-eastward, the British have pushed forward on a front of 1½ miles.

German newspapers are admitting that American troops to the number of 1,300,000 may have reached France, but declare that the great bulk of the force is not intended for the fighting line. Berlin, officially, says that British attacks, north of the Somme, Thursday, failed. Concerning the situation in the south it says the French have attacked "our new positions" between the Avre and the Aisne. The retirement south of Noyon, Wednesday night, is declared to have been unnoticed by the French.

**FRENCH LINES ADVANCED.**  
Paris, Aug. 23.—Between the Oise and the Aisne, French troops advanced their lines during the night to Guzy and Pont St. Mar, just north of the Ailette river. They hold the northern banks of the Oise and the Ailette from Semipray to the railroad, west of Coucy-Le-Chateau, according to the official statement issued by the war office today.

The text of the statement reads: "During the night there was a violent bombardment between the region of Neuvaigues (south of Roye) and the Oise, notably at Fiemont, Passel and Chiry-Ourscamp."

"We hold the south, the southern banks of the Oise, and the Ailette from Semipray to the railroad at Coucy-Le-Chateau."

"East of Soissons, French troops carried their lines as far as the outskirts of Guzy and Pont St. Mar."

"The night was calm on the rest of the front."

## SUCCESSES HAVE INCREASED MENACE TO ROYE AND NOYON

(Associated Press Telegram)  
Paris, Aug. 23.—The Franco-British successes Thursday increased the menace to Roye and Noyon and rendered their fall near, says the Echo de Paris. It adds that Paris has been made safer by the operations of the army of General Humbert and that Soissons had been made more secure by the capture of Pommiers and Vauxresis.

L'Homme Libre says there is reason to hope for important events in the next few days in the region of Noyon.

## CAMP SHERMAN NOTES

(Associated Press Telegram)  
Camp Sherman, Chillicothe, O., Aug. 23.—Indications were yesterday that Major Charles Sawyer, former Cincinnati lawyer, will be Camp Sherman's next provost marshal. Major Sawyer, who recently was Democratic candidate for mayor of the Queen City, now is acting provost marshal and it has been said on good authority that an order will come through in the next few days announcing the appointment. He was promoted from captain to major a few days ago.

Captain Bugand, Josef Janot and Lieutenant Marcel Blanck, of the French mission who has been here training recruits on French army tactics received orders yesterday to proceed to Camp Dodge, Iowa, for duty.

Mike Graells, one of the K. of C. secretaries here announces plans for the building of a large athletic field near the detention camp are complete. The money for the erection of a movable boxing ring and a combination basketball and handball court will be forthcoming soon from two or three sources, Graells predicts. Military approval of the project has been obtained.
